

Proposed hedgerow and tree planting along northern boundary to filter views of the proposed development from further north.

Proposed hedgerow and tree planting along with wildflower seeding around Park House to block views of the proposed development and provide an open setting to the house.

Existing hedgerow is within red line (only to the north of the road) will be managed to maintain visibility splay.

Underdown Hollow

Proposed hedgerow planting and wildflower seeding to the north of New Cottages to filter views of the proposed development and provide an open setting to the properties.

Proposed pond and drain.

Maintain existing hedgerow to a height to 2m.

Proposed open space around Keepers Cottage to provide an open setting to the house.

20m wide green corridor created with hedgerow planting along length of PRoW within the site.

West of England Main Line

Bradford Abbas

20m wide green corridor created (retaining existing track) with hedgerow and tree planting at 10m centres along length of PRoW within the site.

Creation of community orchard and wildflower planting to enhance on-site biodiversity and provide an open landscape setting to Wyke Farm. Include ever green planting around boundaries to provide increased seasonal visual mitigation.

Creation of new permissive paths across the site to increase opportunities for recreation.

Individual wet woodland planting along river corridor and permissive path.
