### **3.0 ALTERNATIVES**

- 3.1.1 There is no specific mandatory requirement for applicants to address the issue of alternatives, during the preparation of an ES. Where they have been considered the EIA Regulations indicate that the ES should include an outline of the main alternatives and the reasons they were discounted, taking into account environmental effects.
- 3.1.2 Whilst no alternatives are considered as part of the assessment undertaken for the Proposed Development, in an EIA context, details of the design development process is set out in the Design and Access Statement, submitted in support of the planning application.
