

Key

-  Proposed turbine location
-  2km/4km/6km/8km/10km distance indicators from the proposed turbine locations
-  1 - 4 Turbines may be theoretically visible
-  5 - 8 Turbines may be theoretically visible
-  9 - 12 Turbines may be theoretically visible
-  13 - 16 Turbines may be theoretically visible
-  Sequential viewpoint
-  Wind farm would be visible
-  Wind farm would not be visible (Views screened by intervening local landform, vegetation, built form or outside ZTV)

Notes:
 This figure has been based on the following parameters:
 Turbine layout file: LENOCH048.WFL
 Hub height: 80m
 Rotor diameter: 100m
 Height to blade tip: 130m

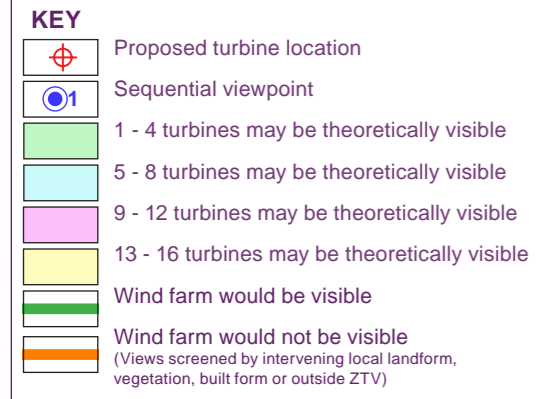

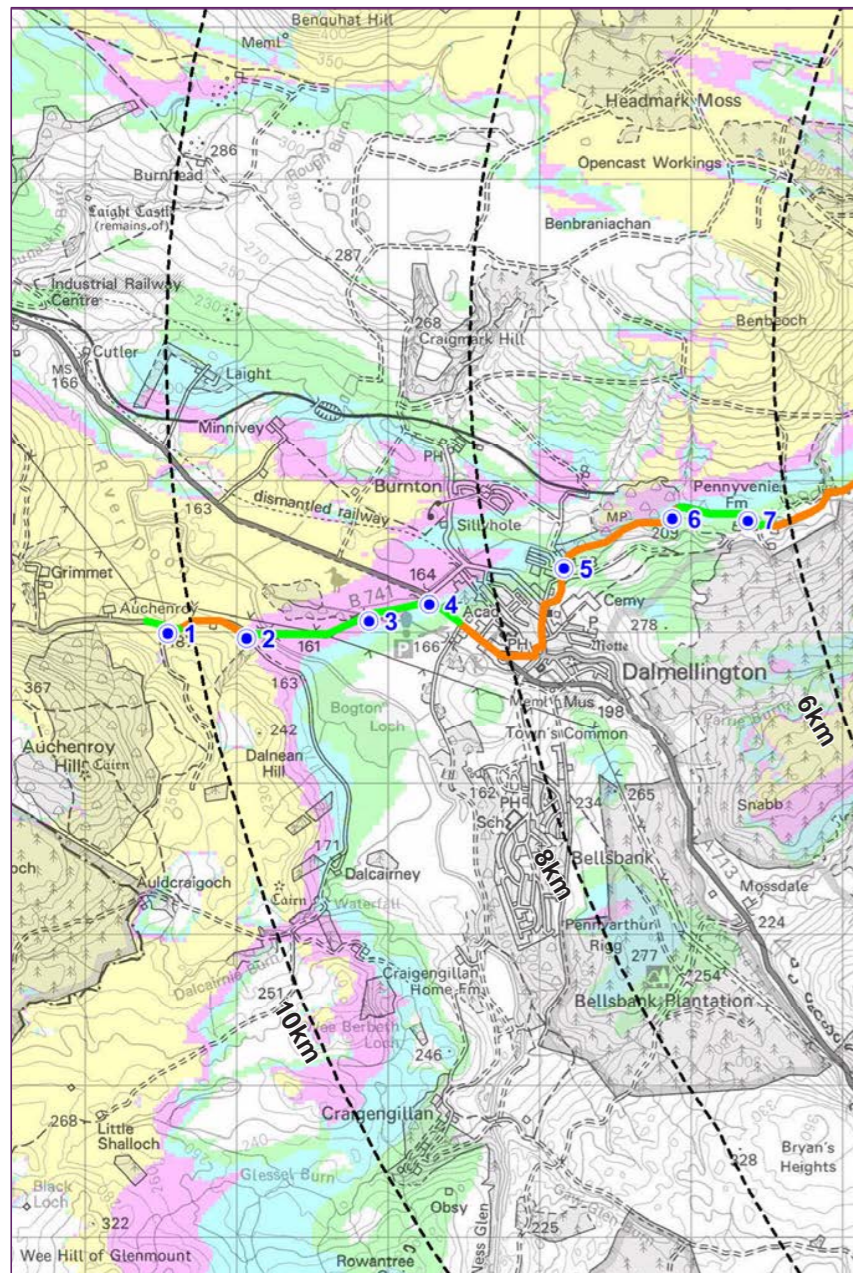

Client
