

- Key
- Proposed turbine locations
 - Landscape and Visual Study Area
 - Local authority boundaries
 - Lines indicating the distance from the proposed turbines
 - Enoch Hill may be theoretically visible
 - Over Hill may be theoretically visible
 - Taiglim Farm may be theoretically visible
 - Enoch Hill and Over Hill may be theoretically visible
 - Enoch Hill and Taiglim Farm may be theoretically visible
 - Over Hill and Taiglim Farm may be theoretically visible
 - Enoch Hill, Over Hill and Taiglim Farm may be theoretically visible
 - Consented Wind Farms

C04) Over Hill C06) Taiglim Farm *

* Micro generation schemes less than 50m to blade tip

Notes: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The areas shown indicate the maximum theoretical visibility of the proposed turbines using OS Terrain 50 data only and do not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.

This figure has been based on the following parameters:
 Turbine layout file: LENOCH062.WFL
 Hub height: 81.9m
 Rotor diameter: 136m
 Height to blade tip: 149.9m
