

**Key**

- Proposed turbine locations
- Landscape and Visual Study Area
- Local authority boundaries
- Lines indicating the distance from the proposed turbines
- Enoch Hill may be theoretically visible
- North Kyle may be theoretically visible
- Pencloe Variation, Windy Standard Phase III or Sanquhar II may be theoretically visible
- Enoch Hill and North Kyle may be theoretically visible
- Enoch Hill and Pencloe Variation / Windy Standard Phase III / Sanquhar II may be theoretically visible
- North Kyle and Pencloe Variation / Windy Standard Phase III / Sanquhar II may be theoretically visible
- Enoch Hill, North Kyle and Pencloe Variation / Windy Standard Phase III / Sanquhar II may be theoretically visible
- Application Wind Farms

A01) Pencloe Variation      A03) North Kyle  
A02) Windy Standard Phase III      A04) Sanquhar II

Notes: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The areas shown indicate the maximum theoretical visibility of the proposed turbines using OS Terrain 50 data only and do not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.

This figure has been based on the following parameters:  
Turbine layout file: LENOCH062.WFL  
Hub height: 81.9m  
Rotor diameter: 136m  
Height to blade tip: 149.9m

0 2 4 6 8 10 12 14 16 km  
Scale at A3: 1:275,000
