## Notice of rolling road closure

C1053, Lybster

30 Weeks

To progress our works in preparation for the construction of the Golticlay Wind Farm, we will install a rolling road closure along the C1053 for approximately 30 weeks. We understand that this road closure will affect the surrounding community, and we apologise for any potential delays you may encounter during our work.

### Construction update

In July 2024, we shared information about some exploratory work we were conducting in preparation for the construction of the Golticlay Wind Farm along the C1053, which links Lybster and the A9. Following this work, we have continued developing our programme and finalised the requirement to widen sections of the C1053 and install new passing points. To do this safely, we need to implement a rolling road closure for the duration of the work, which will involve closing sections at a time.

### What will happen?

A rolling road closure along the C1053 will be in place for approximately 30 weeks. Emergency access will still be maintained during this period. The road closure will be lifted if our work is completed earlier than expected.

### When will this work take place?

The road closure is expected to be implemented shortly, with updates provided on our project webpage: [www.rwe.com/golticlay](http://www.rwe.com/golticlay).

There are several key points you should be aware of about our work:

- Closure points will move along the C1053; residents will always have access to their properties, which our traffic marshals will arrange.
- A 30mph speed limit will be in place along the C1053.
- Fully signposted diversion routes will be in place during this time. A map of these diversions can be found overleaf.
- Public access to Golticlay and Rumster Forests will remain via the southbound C1053 off the A9.

## Keep up to date

If you have any questions regarding the planned works, please visit or contact us at:

[www.rwe.com/golticlay](http://www.rwe.com/golticlay) [golticlay@rwe.com](mailto:golticlay@rwe.com)

## Road closure & diversion routes

The map above shows the location of the rolling road closure along the C1053 and the associated diversion routes.

During the closure, you cannot drive northbound along the C1053 to access the A9 or southbound to access the A99. Alternatively, you will need to drive westbound along the A99 to join the A9 or southbound along the A9 to join the A99.

Continuous updates will be available online.

If you have any questions regarding the planned works, please visit or contact us at:

## Community drop-in event

We would like to invite you to a drop-in event where our team members will provide further information on our planned works and answer any of your questions.

**Wednesday 9th October 2024**  
**15:00 – 19:00**

Lybster Bowling Club  
Main Street
