

Great Yarmouth Power Station Application for Section 36 Variation
Explanatory Memorandum and Proposed Tracked Changes to the Section 36 Consent

Great Yarmouth Section 36 Consent (23 October 1997)			
1	<p>Pursuant to section 36 of the Electricity Act 1989 the Secretary of State for Trade and Industry (the Secretary of State) hereby consents to the construction by Amoco Power Resources (Europe) Limited (the Company), on the area coloured red on Figure 1, annexed hereto and duly endorsed on behalf of the Secretary of State, of a combined cycle gas turbine generating station at South Denes, Great Yarmouth in the County of Norfolk (the Development), and to the operation of that generating station.</p>	<p>1 Pursuant to section 36 of the Electricity Act 1989 the Secretary for Energy, Security & Net Zero of State for Trade and Industry (the Secretary of State) hereby has consented to the construction by Amoco Power Resources (Europe) Limited (the Company), on the area outlined coloured red on <u>Drawing number RWE/GTYRM/ENV/0002/A Figure 1</u>, annexed hereto and duly endorsed on behalf of the Secretary of State, of a combined cycle gas turbine generating station at South Denes, Great Yarmouth in the County of Norfolk (the Development), <u>known as Great Yarmouth Power Station in 1997 (DTI Reference AAH/1/42) and further consented to its operation at about 400MW in 2001 (DTI Reference GDBC/00006) and hereby consents</u> to the <u>continued</u> operation of that generating station <u>by RWE Generation UK plc (the Company), its successors in title and assigns.</u></p>	<p>Updated with references to the new Department for Energy, Security & Net Zero, as well as to refer to the current owner and operator of Great Yarmouth Power station, RWE Generation UK plc, and to cross refer to historical update of the Section 36 consent.</p>
3 [sic]	<p>Subject to paragraph 3(1), the Development shall be of about 350 MW capacity and comprise:</p> <ul style="list-style-type: none"> (a) a gas turbine, a heat recovery steam generator and a steam turbine; (b) ancillary plant and equipment; and 	<p><u>2.</u> Subject to paragraph 3(1), the Development shall be of about 350 MW capacity and comprised:</p> <ul style="list-style-type: none"> <u>(a) one or more</u> a gas turbines <u>and</u>, a heat recovery steam generators; (a) <u>(b)</u> and a <u>one or more</u> steam turbines; (b) <u>(c)</u> ancillary plant and equipment; and <u>(d)</u> the necessary buildings (including administration buildings <u>offices</u>) and civil engineering works. 	<p>Wording updated in line with the 2001 S36 consent variation and the proposed capacity for the Development</p>

	(c) the necessary buildings (including administration buildings) and civil engineering works.	<u>The Development may operate at a gross capacity of up to 430MWe.</u>	
3	<p>This consent is granted subject to the following conditions:</p> <p>(1) Except where otherwise required by virtue of the planning permission deemed to be granted by paragraph 4 or where the written permission of the Secretary of State has been given to any variation in design, construction or operation of the Development, the Development shall be constructed and operated in accordance with the details contained in the Company's application of 23 April 1996.</p> <p>(2) The construction of the Development shall be begun before the expiry of five years from the date of this consent, or such longer period as the Secretary of State may hereafter direct.</p>	<p>3. This consent is granted subject to the following conditions:</p> <p>(1) Except where otherwise required by virtue of the planning permission deemed to be granted by paragraph 4 or where the written permission of the Secretary of State has been given to any variation in design, construction or operation of the Development, the Development shall be constructed and operated in accordance with the details contained in the <u>Section 36 Company's application of 23 April 1996, as varied by an application of 22 September 2000 and as further amended by the details contained in the Company's application for a section 36c variation dated 15/12/2023.</u></p> <p>The construction of the Development shall be begun before the expiry of five years from the date of this consent, or such longer period as the Secretary of State may hereafter direct.</p>	<p>Updated references to the 2020 application, and deleted references to commencement of Development as no longer relevant.</p> <p>Deleted all references to pre commencement or pre construction conditions as no longer relevant since the development is already operational.</p>
4	The Secretary of State in exercise of the powers conferred on her by section 90(2) of the Town and Country Planning Act 1990 hereby directs that planning permission for the Development be deemed to be	4. The Secretary of State in exercise of the powers conferred on her by section 90(2ZA) of the Town and Country Planning Act 1990 ('1990 Act') hereby directs that planning permission for the Development be deemed to be granted subject to the following conditions:	Deleted all references to pre commencement or pre construction conditions as no longer relevant since the development is already operational.

	<p>granted subject to the following conditions:</p> <p>Definitions</p> <p>(1) In these Conditions, unless the context otherwise requires "BS 4142" means British Standard 4142: 1990 - Method for rating industrial noise affecting mixed residential and industrial areas; "Bank Holiday" means a day that is or is to be observed as a Bank Holiday or a holiday under the Banking and Financial Dealings Act 1971; "best practicable means" is to be interpreted by reference to the provisions mentioned in section 79(9) of the Environmental Protection Act 1990; "bulk materials" means dry loose aggregates, cement and soil; "the commencement of the Development" means the date on which the Development shall be taken to be initiated in accordance with section S36 of the Town and Country Planning Act 1990, as amended;</p>	<p>Definitions</p> <p>(1) In these Conditions, unless the context otherwise requires</p> <p>"BS 4142" means British Standard 4142: 1990— Method for rating industrial noise affecting mixed residential and industrial areas;</p> <p>"Bank Holiday" means a day that is or is to be observed as a Bank Holiday or a holiday under the Banking and Financial Dealings Act 1971;</p> <p>"best practicable means" is to be interpreted by reference to the provisions mentioned in section 79(9) of the Environmental Protection Act 1990;</p> <p>"bulk materials" means dry loose aggregates, cement and soil;</p> <p>"the commencement of the Development" means the date on which the Development shall be taken to be initiated in accordance with section S36 of the Town and Country Planning Act 1990, as amended;</p> <p>"the commissioning of the Development" means the date on which the Development first supplies electricity on a commercial basis to the transmission system of the National Grid Company or directly to one of the Company's customers;</p> <p>"the Company" means <u>RWE Generation UK plc Amoco Power Resources (Europe) Limited</u> and its assigns and successors;</p>	
--	--	---	--

	<p>"the commissioning of the Development" means the date on which the Development first supplies electricity on a commercial basis to the transmission system of the National Grid Company or directly to one of the Company's customers;</p> <p>"the Company" means Amoco Power Resources (Europe) Limited and its assigns and successors;</p> <p>"the Council" means the Great Yarmouth Borough Council and its assigns and successors;</p> <p>"creative conservation" means the establishment of areas which are capable of sustaining indigenous species of flora and fauna;</p> <p>"the Development" means the combined cycle gas turbine generating station at South Denes, Great Yarmouth in the County of Norfolk;</p> <p>"emergency" means circumstances in which there is reasonable cause for apprehending imminent injury to persons, serious damage to</p>	<p>"the Council" means the Great Yarmouth Borough Council and its assigns and successors;</p> <p>"creative conservation" means the establishment of areas which are capable of sustaining indigenous species of flora and fauna;</p> <p>"the Development" means the combined cycle gas turbine generating station at South Denes, Great Yarmouth in the County of Norfolk <u>known as Great Yarmouth Power station</u>;</p> <p>"emergency" means circumstances in which there is reasonable cause for apprehending imminent injury to persons, serious damage to property or danger of serious pollution to the environment;</p> <p>"Environment Agency" means the Environment Agency and its assigns and Successors;</p> <p>"heavy commercial vehicle" has the meaning given by section 138 of the Road Traffic Regulation Act 1984;</p> <p>"the main Development" means the construction work commencing with the placing of the first concrete for the main plant foundations of the Development;</p> <p>"operating weight" in relation to a goods vehicle has the meaning given by section 138 of the Road Traffic Regulation Act 1984; and</p> <p>"the Site" means the area of land <u>outlined coloured-red</u> on <u>Drawing number</u></p>	
--	---	---	--

	<p>property or danger of serious pollution to the environment; “Environment Agency” means the Environment Agency and its assigns and Successors; “heavy commercial vehicle” has the meaning given by section 138 of the Road Traffic Regulation Act 1984; “the main Development” means the construction work commencing with the placing of the first concrete for the main plant foundations of the Development; “operating weight” in relation to a goods vehicle has the meaning given by section 138 of the Road Traffic Regulation Act 1984; and “the Site” means the area of land coloured red on Figure 1, annexed hereto;</p> <p>The Site (2) The construction of the Development shall only take place within the boundary of the Site. Reason: To ensure that no construction takes place</p>	<p>RWE/GTYRM/ENV/0002/A Figure 1, annexed hereto;</p> <p>The Site (2) The construction of the Development shall only take place within the boundary of the Site. Reason: To ensure that no construction takes place beyond the boundary of the site which is the area which is the subject of this planning permission.</p> <p>Time Limits (3) The commencement of the Development shall be no later than the expiry of five years from the date of this permission. Reason: To comply with the requirements of section 91 of the Town and Country Planning Act 1990.</p> <p>Suppression of Dust and Dirt The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council a scheme for the provision of wheel cleansing facilities for heavy commercial vehicles and any other vehicle which has an operating weight exceeding three tonnes. Such approved facilities shall be installed in accordance with a timescale to be approved in writing by the Council and shall be maintained throughout the period of the construction of the Development. The Company shall make provision of a concrete or bituminous macadam road on the Site between the wheel cleansing facilities</p>	<p>Construction conditions, time limits to implement the permission, suppression of dust, layouts, roads, construction noise etc deleted as no longer relevant.</p>
--	---	--	---

	<p>beyond the boundary of the site which is the area which is the subject of this planning permission.</p> <p>Time Limits</p> <p>(3) The commencement of the Development shall be no later than the expiry of five years from the date of this permission.</p> <p>Reason: To comply with the requirements of section 91 of the Town and Country Planning Act 1990.</p> <p>Suppression of Dust and Dirt</p> <p>(4) The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council a scheme for the provision of wheel cleansing facilities for heavy commercial vehicles and any other vehicle which has an operating weight exceeding three tonnes. Such approved facilities shall be installed in accordance with a timescale to be approved in writing by the Council and shall be maintained throughout the period of the construction of the Development.</p>	<p>provided pursuant to Condition (4) and the public highway.</p> <p>(4) All heavy commercial vehicles and any other vehicle which has an operating weight exceeding three tonnes associated with the construction of the Development, shall on each occasion prior to leaving the Site pass through the wheel cleansing facilities provided pursuant to Condition (4).</p> <p>(5) The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council a scheme employing the best practicable means for the suppression of dust during the period of the construction of the Development. The measures approved in the scheme shall be employed throughout the period of construction unless any variation has been approved in writing by the Council.</p> <p>(6) All heavy commercial vehicles carrying bulk materials into and out of the Site shall be sheeted so as fully to contain such material and prevent it being dispersed into the environment during transit.</p> <p>(7) The Company shall put in place procedures to monitor all exit points from the Site and shall as soon as reasonably practicable sweep or otherwise clear away any mud or similar matter which may be carried onto the public highway by vehicles leaving the Site during the period of the construction of the Development.</p>	
--	--	---	--

	<p>(5) The Company shall make provision of a concrete or bituminous macadam road on the Site between the wheel cleansing facilities provided pursuant to Condition (4) and the public highway.</p> <p>(6) All heavy commercial vehicles and any other vehicle which has an operating weight exceeding three tonnes associated with the construction of the Development, shall on each occasion prior to leaving the Site pass through the wheel cleansing facilities provided pursuant to Condition (4).</p> <p>(7) The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council a scheme employing the best practicable means for the suppression of dust during the period of the construction of the Development. --	---	--	--

	<p>(19) No pile driving approved pursuant to Condition (18) shall take place on the Site on any Sunday or Bank Holiday nor on any other day except between the following times: Monday to Friday 0800 - 1800 hours Saturday 0800 - 1300 hours unless such pile driving is – (a) associated with an emergency; or (b) carried out with the prior written approval of the Council.</p> <p>(20) In any instance where a time limitation referred to in Conditions (17) and (19) is exceeded because of an emergency the Company shall within 2 working days provide the Council with a written statement detailing the nature of the emergency and the reason why the time limitation could not be observed. Reason: To enable reasonable and proper control to be exercised over the methods of construction of the Development.</p> <p>Construction Noise and Vibration</p>	<p>the Council with a written statement detailing the nature of the emergency and the reason why the noise level and/or limitation could not be observed. If the emergency period is expected to be for more than twenty four hours then the Company shall inform those residents affected by the effects of the emergency of the reasons for the emergency and the expected duration.</p> <p>(24) — Except in an emergency, the Company shall give at least 2 working days prior notice in writing to the Council of any proposed operation of emergency pressure valves or similar equipment. So far as is reasonably practicable, any such operation</p> <p>(a) shall take place between the hours of 09.00 and 17.00; and</p> <p>(b) shall not take place on any Saturday, Sunday or Bank Holiday.</p> <p>Reason: To ensure the proper control of noise during the operation of the Development and to give advance warning of the timing of exceptionally noisy events.</p> <p>Noise Complaints Procedure</p> <p>(25)(3) In any instance where a local resident has cause to make a complaint about noise generated by the construction and/or operation of the Development the Company shall carry out investigations to establish the justification, or otherwise, for the complaint, the likely cause and possible remedial measures. A written report to the</p>	
--	--	--	--

	<p>(21) The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council a programme for the monitoring of noise and vibration generated during the construction of the Development. The programme shall specify the measurement locations from which noise and vibration will be monitored and the maximum permissible levels at each such monitoring locations. The programme shall make provision for such noise and vibration measurements to be undertaken as soon as possible following requests by the Council and such measurements shall be given to the Council as soon as they are available. At each measurement location, noise levels during construction operations shall not exceed the levels specified in the approved programme unless otherwise approved in writing by the Council or in an emergency.</p>	<p>complainant shall be made as soon as reasonably practicable following the investigation/remedial work. The Company shall keep all such reports in an appropriate file and such file shall be made available to the Council on request Reason: To ensure that any complaints on the grounds of noise are properly dealt with so as to reduce the impact of the Development on local residents.</p> <p>Landscaping (26) The commencement of the main Development shall not take place until a scheme of landscaping and creative conservation has been submitted to and approved in writing by the Council. (27) The scheme referred to in Condition (28) shall include details of the following matters:</p> <ul style="list-style-type: none"> (i) planting; (ii) management of existing and new planted areas; (iii) restoration of areas affected by construction works; (iv) details of grass seed mix for areas of the Site to be restored to grassland; (v) details of the height, type, size and species of the shrubs and trees to be planted; (vi) details of the measures to be taken to create new flora and fauna habitats and of the management of such new habitats; and 	<p>Landscaping condition deleted as the Development has already been constructed and planting already delivered</p>
--	---	---	---

	<p>(22) In any instance where the noise limitation referred to in Condition (21) is exceeded because of an emergency the Company shall within 2 working days provide the Council with a written statement detailing the nature of the emergency and the reason why the noise level could not be observed. Reason: To ensure proper control of noise during the construction of the Development.</p> <p>Operational Noise</p> <p>(23) The commissioning of the Development shall not take place until there has been submitted to and approved in writing by the Council a programme for the monitoring of noise generated by the operation of the Development. The programme shall specify the locations from which noise will be monitored, the method of noise measurement (which shall be in accordance with BS 4142) and the maximum permissible levels of noise at each such location. The programme shall make provision for such noise</p>	<p>(vii) phasing of works included in the scheme.</p> <p>(28) The landscaping and planting, including grass sowing, shall take place in accordance with the phasing of works specified in Condition (29) (vii) and no later than the appropriate planting or sowing season following the completion of the construction of the Development and shall be carried out in accordance with the scheme approved under Condition (28). Any trees or shrubs, including hedges, which die, become seriously damaged or diseased or are removed within five years from the date of planting shall be replaced in the next planting season with others of a similar size and species, unless otherwise approved in writing by the Council.</p> <p>Reason: To ensure proper landscaping for the Development and so as not to prejudice the futures planning of the riverside.</p> <p>Prevention of Contamination of Watercourses</p> <p>(29) The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council, in consultation with the Environment Agency, a scheme showing the method and working of drainage facilities on the Site. Such facilities shall be put in place in accordance with the approved scheme.</p> <p>(30) The scheme referred to in Condition (31) shall include:</p>	<p>Pre-commencement condition on contamination of watercourses deleted as the Development has already been built.</p>
--	---	---	---

	<p>measurements to be taken by the Company as soon as possible following requests by the Council and such measurements shall be given to the Council as soon as they are available. At such measurement locations noise levels shall not exceed the levels specified in the approved programme, except in an emergency.</p> <p>(24) Notwithstanding any noise measurement and noise measurement location approved by the Council pursuant to Condition (23) the noise generated by the operation of the Development shall not exceed LA, - 39 dBA (5 minutes) when assessed in accordance with BS 4142 at residential positions 1 (Riverside Road/Rear of High Street) and 2 (Riverside Road/South Icehouse Hill) on Figure 7, annexed hereto. The noise shall exhibit no tonal or impulse content at these locations in any weather conditions. The above noise level limitation shall be adhered</p>	<p>(i) — measures to ensure that no leachate or any contaminated surface water from the Site shall be allowed at any time to enter directly or indirectly into any watercourse or underground strata or onto adjoining land;</p> <p>(ii) — provision for trapped gullies in car parks, hardstandings and roadways;</p> <p>(iii) — measures to ensure that all foul sewage must drain to an approved foul sewerage and/or sewage disposal system; and</p> <p>(iv) — phasing of works.</p> <p>(31) — Any surface water contaminated by hydrocarbons which are used during the construction of the Development shall be passed through oil/grit interceptor(s) prior to being discharged to any on Site foul drainage system or public sewer or watercourse or to any other surface water disposal system which has been approved by the Environment Agency.</p> <p>(32) — All facilities required for the storage of hydrocarbons, process chemicals or similar liquids must be sited on impervious bases and surrounded by impervious bund walls. The size of the bunded compound shall be at least equivalent to the capacity of the largest tank plus 10%. All filling points, vents and sight glasses must be located within the bund and there must be no drain through the bund floor or walls.</p>	
--	--	---	--

	<p>to at all times except in an emergency.</p> <p>(25) In any instance where a noise level approved pursuant to Condition (23) or a noise limitation referred to in Condition (24) is exceeded because of an emergency the Company shall within 2 working days provide the Council with a written statement detailing the nature of the emergency and the reason why the noise level and/or limitation could not be observed. If the emergency period is expected to be for more than twenty four hours then the Company shall inform those residents affected by the effects of the emergency of the reasons for the emergency and the expected duration.</p> <p>(26) Except in an emergency, the Company shall give at least 2 working days prior notice in writing to the Council of any proposed operation of emergency pressure valves or similar equipment. So far as is reasonably practicable, any such operation</p>	<p>(33) All containers in the bunded area referred to in Condition (34) containing acids, alkalis or sulphides in addition to being contained in suitable facilities will have appropriate protective lining applied to the inner walls of the bund.</p> <p>(34) The facilities required for the purposes specified in Condition (34) shall be built prior to the commencement of the main Development. Reason: To ensure proper drainage of the Site and that proper containment facilities are built.</p> <p>Atmospheric Emissions</p> <p>(35) All data relating to emissions into the air from the Development which are supplied by the Company to the Environment Agency pursuant to the Environmental Protection Act 1990 or any other relevant legislation, for publication on the public register, shall be supplied by the Company, as soon as possible after the data become available to the Council except where the Council has informed the Company in writing that it does not wish the Company to supply all or part of such data to it. Reason: To ensure that the Council is given access to information required for the exercise of their functions.</p> <p>Air Pollution Monitoring</p> <p>(36) The commissioning of the Development shall not take place until there has been submitted to and approved in</p>	<p>Condition on Atmospheric Emissions has been deleted as the matter is fully regulated by the Environment Agency via the station's environmental permit and we understand that all public enquiries received by the Council on this matter are referred to the EA.</p>
--	---	--	---

	<p>(a) shall take place between the hours of 09.00 and 17.00; and</p> <p>(b) shall not take place on any Saturday, Sunday or Bank Holiday.</p> <p>Reason: To ensure the proper control of noise during the operation of the Development and to give advance warning of the timing of exceptionally noisy events.</p> <p>Noise Complaints Procedure</p> <p>(27) In any instance where a local resident has cause to make a complaint about noise generated by the construction and/or operation of the Development the Company shall carry out investigations to establish the justification, or otherwise, for the complaint, the likely cause and possible remedial measures. A written report to the complainant shall be made as soon as reasonably practicable following the investigation/remedial work. The Company shall keep all such reports in an appropriate file and such file shall be made</p>	<p>writing by the Council a scheme for the monitoring of air pollution in its area. The scheme shall specify the pollutants to be monitored and include the measurement location or locations within the Council's area from which air pollution will be monitored, the equipment and methods to be used and the frequency of measurement. The scheme shall provide for the first measurement to be taken not less than 12 months prior to the commissioning of the Development and for the final measurement to be taken not more than 24 months after the commissioning of the Development. The Company shall supply full details of the measurements obtained in accordance with the scheme to the Council as soon as possible after they become available.</p> <p>(37) — Should the Council require continued monitoring of air pollution the Company shall extend the scheme approved pursuant to Condition (38) for a period of up to 60 months from the date of the last measurement taken pursuant to Condition (38). The Company shall supply full details of the measurements obtained during the extended period to the Council as soon as possible after they become available.</p> <p>Reason: To ensure that the Council is kept informed on a regular and programmed basis about the changes in the level of air pollution at locations within its area.</p> <p>Fuel</p>	<p>Condition on Fuel: all natural gas for use in the station's</p>
--	--	---	--

	<p>available to the Council on request Reason: To ensure that any complaints on the grounds of noise are properly dealt with so as to reduce the impact of the Development on local residents.</p> <p>Landscaping</p> <p>(28) The commencement of the main Development shall not take place until a scheme of landscaping and creative conservation has been submitted to and approved in writing by the Council.</p> <p>(29) The scheme referred to in Condition (28) shall include details of the following matters:</p> <ul style="list-style-type: none"> (i) planting; (ii) management of existing and new planted areas; (iii) restoration of areas affected by construction works; (iv) details of grass seed mix for areas of the Site to be restored to grassland; (v) details of the height, type, size and species of the shrubs and trees to be planted; 	<p>(4) All natural gas for use in the operation of the Development shall be conveyed to the Site only by pipeline.</p> <p>(41) All condensate for use in the operation of the Development shall be conveyed to the Site only by pipeline.</p> <p>(42) Condensate storage on the Site shall not exceed 3,900 tonnes.</p> <p>Reason: To ensure that gas and condensate are not delivered to the Development by road and to prevent a large area of the Borough coming within the notifiable area required by the Health and Safety Executive.</p> <p>Contaminated Waste</p> <p>(43) The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council, in consultation with the Environment Agency, & scheme for the treatment of any contaminated material found on the Site.</p> <p>(44) Contaminated material arising from the construction of the Development shall be treated on the Site in accordance with the scheme approved pursuant to Condition (44) or shall be disposed of to licensed disposal facilities.</p> <p>Reason: To ensure that contaminated waste found on the Site is disposed of properly.</p> <p>Archaeology</p> <p>(45) The commencement of the Development shall not take place until there has been submitted to and approved in</p>	<p>operation is delivered by pipeline only. There is no gas condensate storage on site so related conditions have been deleted.</p> <p>Condition on contaminated waste deleted as the Development has already been built.</p> <p>Condition on Archaeology deleted as the Development has already been built.</p>
--	---	---	--

	<p>(vi) details of the measures to be taken to create new flora and fauna habitats and of the management of such new habitats; and</p> <p>(vii) phasing of works included in the scheme.</p> <p>(30) The landscaping and planting, including grass sowing, shall take place in accordance with the phasing of works specified in Condition (29) (vii) and no later than the appropriate planting or sowing season following the completion of the construction of the Development and shall be carried out in accordance with the scheme approved under Condition (28). Any trees or shrubs, including hedges, which die, become seriously damaged or diseased or are removed within five years from the date of planting shall be replaced in the next planting season with others of a similar size and species, unless otherwise approved in writing by the Council. Reason: To ensure proper landscaping for the</p>	<p>writing by the Borough Council a scheme of archaeological investigation and an associated implementation programme.</p> <p>(46) The scheme approved pursuant to Condition (46) shall provide for:</p> <p>(i) any person nominated by the Council to be permitted safe access to the part of the Site where the find is made;</p> <p>(ii) finds of national importance to be evaluated and, where practicable, preserved in situ; and</p> <p>(iii) phasing of works.</p> <p>(47) The further investigations and recording of such finds as are considered necessary by the Council shall be undertaken prior to the construction of any part of the Development on that part of the Site where such finds are identified, and in the case of finds of national importance in accordance with the phasing of works approved pursuant to Condition (47) (iii), unless any variation has been approved in writing by the Council. Reason: To allow the surveying of the Site for archaeological artefacts and the recovery of any important archaeological discovery before construction of the main Development begins.</p> <p>TV, Microwave and Radio Interference</p> <p>(48) Prior to the commencement of the main Development the Company shall carry out an investigation of the likely impact, if any, of the construction and operation of the Development on television, microwave or</p>	<p>The Development has no interference with tv, radio or microwave operation so this condition has been deleted.</p>
--	--	--	--

	<p>Development and so as not to prejudice the futures planning of the riverside.</p> <p>Prevention of Contamination of Watercourses</p> <p>(31) The commencement of the Development shall not take place until there has been submitted to and approved in writing by the Council, in consultation with the Environment Agency, a scheme showing the method and working of drainage facilities on the Site. Such facilities shall be put in place in accordance with the approved scheme.</p> <p>(32) The scheme referred to in Condition (31) shall include:</p> <p>(i) measures to ensure that no leachate or any contaminated surface water from the Site shall be allowed at any time to enter directly or indirectly into any watercourse or underground strata or onto adjoining land;</p> <p>(ii) provision for trapped gullies in car parks, hardstandings and roadways;</p>	<p>radio-communications. Details of the investigation shall be presented to the Council. Should the investigation predict adverse effects, the Company shall take steps to provide such equipment as may be necessary to ensure interference is eliminated.</p> <p>Reason: To ensure that existing TV, microwave and radio-communications are not adversely affected by the Development.</p> <p>Use of Waste Heat</p> <p>(49) The commissioning of the Development shall not take place until the Company has installed the necessary plant and pipework to supply waste heat to the Site boundary.</p> <p>Reason: To ensure that waste heat be available for use to the benefit of the local community.</p> <p>Default of Agreement</p> <p>(5) Where any matter is required to be agreed in writing by the Council under any of the foregoing Conditions that matter shall in default of agreement be determined by the Secretary of State for <u>Energy Security and Net Zero</u>Trade and Industry.</p>	<p>Pre-commissioning condition deleted as the Development has already been built.</p> <p>Updated references to the Secretary of State for Energy & Net Zero</p>
