

Notes: This drawing is based on a computer generated Zone of Theoretical Visibility (ZTV). The areas shown indicate the maximum theoretical visibility of the proposed turbines using OS Terrain 50 data only and do not take account of any screening from vegetation or built-form. The ZTV also includes an adjustment that allows for the Curvature and Light Refraction of the Earth.

This figure has been based on the following parameters:
 Turbine layout file: LS36LORG2020019.WFL
 Hub height: 119m
 Rotor diameter: 162m
 Height to blade tip: 200m

- Key
- Proposed turbine locations
 - Landscape and Visual Study Area
 - Local authority boundaries
 - Lines indicating the distance from proposed turbines
 - 1-3 turbines may be theoretically visible
 - 4-7 turbines may be theoretically visible
 - 8-11 turbines may be theoretically visible
 - 12-15 turbines may be theoretically visible
 - Sustrans National Cycle Route
