

RWE in Wales

RWE is Wales' #1 power producer and #1 renewables generator

~ 3 GW*

of power generation, including the UK's first large-scale offshore wind farm North Hoyle**

~ £3 bn

invested in Wales

~ 350

Wales based employees

In operation

3 Offshore wind farms

3 Onshore wind farms

5 Hydro power stations

1 Gas fired power station

- Offshore wind
- Onshore wind
- Hydro
- Gas
- Offices

RWE in Wales

We're involved in c. **1GW of renewables generation** and at the forefront of Wales' low carbon future.

Our unique **Pembroke Net Zero Centre** will combine hydrogen, floating wind, battery storage, carbon capture and solar to help decarbonise South Wales.

We've consented **Awel y Môr offshore wind farm**, Wales' largest renewables investment this decade and have ambitions to develop:

- Commercial scale floating wind in the **Celtic Sea**
- **~600MW** of new onshore wind
- **~400MWac** of solar and storage projects
- **~400Mwe** electrolytic hydrogen projects in Wales.

*RWE pro rata share 2,652 MW including 50% share of Gwynt y Môr (576MW) and 50% share of Rhyl Flats (90MW)
**Operated but not owned by RWE (60MW)

Annual community funding worth over

£2.7 million

Decisions made by local people for local communities

Pembroke Power Station

£17 million GVA p.a.

contributions to local economy

Gwynt y Môr offshore wind farm

£8 million
